

Bilingual class

We have been colleagues for four years now. Our secret to cooperation is careful teaching principles based on strong values we both share.

I have been teaching for 8 years now. I educate the children using the Meixner method to read and write. My math classes make a good impression on the kids, with them being active and creative.

Ditta néni with her 4 years of experience adds a great momentum to our dynamic. Her young and creative attitude makes the Music, Art and afternoon classes the happiest.

So far, we have only taught in a bilingual class. Our skill set improves week by week and it makes us prepared for the first graders every four years.

Starting school is a huge step for every child and it is our intention to help them the best way possible. We welcome our first graders with open hearts!

The kids said about us:

Virág: „Ildikó néni: Kedves, segítőkész, vicces, olyan, mint egy orvos, Ditta néni: Kedves, ad plusz pontokat, amit nagyon szeretek, segítőkész, humoros, jól rajzol”

Enikő: „Ildi néni nagyon jó osztályfőnök. Nagyon jól megtanít mindent, elmagyaráz. Ő is nagyon kedves, gondoskodó, aggódó. Segít a dolgozatokat elmagyarázni. CSAK AJÁNLANI TUDOM!!!”

„Ditta néni nagyon kedves és kellően szigorú. Mindenkire odafigyel. Mindenki nagyon szereti. Mindig segít, aggódik mindenkiért, játékos, jófej. A rossz az, hogy nincs rossz dolog. Nagyon fogják, szeretni.”

Tabarek: „Ditta néni always helps everyone with the homework. She's kind, good, always helps if someone gets hurt, not just us, everyone in the school. She always gives us candy when we play Math Bingo or anything. She is an amazing teacher.”

„Ildikó néni is a very, very good teacher. She always explains what a task means or she shows us a picture to understand better. She is a very amazing teacher, and a happy teacher always!
